

Ecovis KGA is a 100% Vaccinated Workplace

Because the protection of the health and wellbeing of our people and our clients is so important to us, we confirm that the Ecovis KGA office in Newmarket will operate as a fully vaccinated facility under the traffic-light safety framework. This means that we require all visitors to our office to be fully vaccinated against COVID-19. This also applies to our people and contractors accessing our office.

We are implementing this policy because we believe that, at this time, vaccinations are how we safely move into an environment with fewer restrictions for businesses, our communities and each of us personally.

Operations under the new Covid-19 Protection Framework

If you are to be visiting our office after 1 December 2021 in addition to using the COVID-19 tracer app to scan in on arrival you will be asked to present a [My Vaccine Pass](#) to whoever you are meeting.

Your vaccine pass can be presented in either digital or print form. All passes have a unique QR code that we will scan to verify and record your vaccination.

For anyone who is not fully vaccinated, we ask that you speak with your meeting host to arrange an alternative to meeting in our offices.

We will continue to update and review our policy as the situation around COVID-19 evolves and we thank you for your cooperation as we implement this new policy. We acknowledge this has been a challenging time for us all and look forward to continuing to work with you, as we look towards the future.

Our sincere thanks to you all

The Ecovis KGA Directors and Staff
